Executive Summary

Performance Summary

The TikTok advertising campaign generated a total spend of \$88,173.79 with 30,172 app installs at a cost per conversion of \$14.12. However, there were no recorded impressions, clicks, or CTR, indicating a potential issue with ad delivery or targeting.

Notable Trends or Patterns

Despite the high spend, the absence of impressions and clicks suggests that the ads were not effectively reaching the target audience. The cost per conversion appears reasonable, but without engagement metrics, the overall campaign effectiveness remains unclear.

Actionable Recommendations

- Review and adjust the targeting settings to ensure the ads reach the appropriate audience segments.
- Check the ad creative and placement for potential issues that may hinder visibility or engagement.
- Consider increasing the budget allocation to test different ad formats or creatives that could improve impressions and clicks.

Report customized for TIKTOK AUCTION_ADVERTISER level with 3 selected metrics.
