Executive Summary

Performance Summary

The META advertising campaign over the last seven days has resulted in a total spend of \$89,055.31, generating 8,609,491 impressions. However, the campaign recorded zero clicks, resulting in a click-through rate (CTR) of 0.00%. This indicates that while the ads are being displayed, they are not engaging the target audience effectively.

Notable Trends or Patterns

Despite varying CTRs across age groups in the sample data, the overall campaign performance remains poor. The highest CTR observed in the sample is 1.23% for the age group 55-64, suggesting that specific demographics may respond better to the content. In contrast, younger demographics (18-24 and 25-34) show relatively high impressions with lower CTRs.

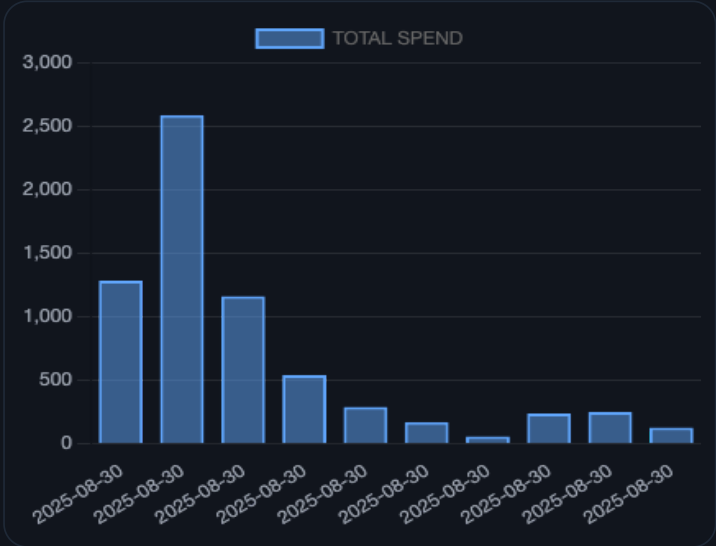

Actionable Recommendations

- Refine Targeting:** Focus on demographics with higher CTRs, such as the 55-64 age group, to improve engagement.
- Ad Content Evaluation:** Analyze ad creatives and messaging to identify elements that may not resonate with the audience and optimize accordingly.
- Test Different Formats:** Experiment with various ad formats (e.g., video, carousel) to see if they drive higher engagement and clicks.
