Executive Summary

Performance Summary

The TikTok advertising campaign has spent a total of \$19,311.84 with a frequency of 3.63. Despite this investment, there are critical performance issues: no impressions or clicks were recorded, resulting in a CTR of 0%. However, the campaign achieved 5,686 SKAN app installs, indicating some level of success in driving installs.

Notable Trends or Patterns

The high conversion rate of 8.48% suggests that while the ads may not have been seen or clicked, the users who did engage with the app after installation were likely to convert.

Actionable Recommendations

- Optimize Targeting: Review and refine the audience targeting settings to ensure the ads reach potential users effectively.
- Improve Creative Assets: Test new ad creatives or formats that may be more engaging to capture impressions and clicks.
- Utilize Retargeting Strategies: Implement retargeting campaigns to engage users who installed the app but did not convert, maximizing the initial spend.
